TANMAY GUNWANT

MERN-Stack Developer | Web Designer | Perfection-Driven Coder
Email-tanmaywork172@gmail.com ◆LinkedIn ◆GitHub ◆Portfolio

Summary

Frontend-focused fullstack developer skilled in building responsive dashboards, landing pages, and student-focused applications using **Next.js, React, and Tailwind CSS**. Strong background in clean UI/UX execution, rapid prototyping, and delivering production-ready apps. Recently built a **Student Learning Tracker Dashboard** showcasing streak tracking, skill modules, and profile integration.

TECHNICAL SKILLS

➢ Languages
JavaScript, TypeScript, HTML, CSS, Java, Python

➢ Frontend
React.js, Next.js, Tailwind CSS

➢ Backend
Node.js, Express.js

➢ Databases
MongoDB, MySQL

➢ Tools & Platform
Git, GitHub, Postman, Figma, Vercel, Render

➢ AI & Integrations
AI API Integration, Authentication

Education & Certifications

B.B.D. Institute of Technology and Management
B.Tech in Computer Science

Lucknow, India
Expected Graduation: 2026

Certification
Oracle MySQL HeatWave Implementation Associate – 2025

Projects

SuperKalam Student Learning Tracker [Live | GitHub]

Next.js + Tailwind dashboard, customized as a personal learning tracker
- Built dashboard with streak tracking, progress bars, and recommended next steps.
- Designed modules for React, Next.js, TypeScript, Tailwind, APIs with persistent progress via localStorage.
- Added profile page with GitHub, LinkedIn, and Resume integration.
- Responsive, production-ready UI with sidebar navigation and dark/light mode toggle.

MindLoom [Live| GitHub]

AI-Powered Mental Fitness Web App
- Built a mental fitness app delivering daily 5-minute focus and clarity routines with journaling, breathing exercises, and AI coaching.
- Optimized for sub-1s load times and cross-device performance.
- Integrated gamification features to boost user engagement.

Portfolio Website [Live| GitHub]

Custom-Designed Developer Portfolio.
- Designed and coded a responsive, accessibility-first portfolio showcasing skills and projects.
- Implemented SEO best practices, achieving 95+ Lighthouse scores in performance and accessibility.

Key Achievements & Workflow

- Runner-Up, Smart India Hackathon 2024 — delivered a working solution under 36 hours.
- Deployed 4+ production-ready apps with live users.
- Event Coordinator, Binary Brains (Coding Club) — organized coding challenges and workshops.
